

## Fencing & Construction

Design • Materials • Installation

Our mission for Fencing & Construction (F&C) is to be the preferred supplier and builder for new rural fencing, yards and outbuildings.

The vision is that:

- F&C provides the highest quality services and products at a competitive price for our clients.
- F&C provides practical and innovative solutions for all fencing and construction needs.

Services offered by F&C include:

- Design, supply of materials & installation
- Repair/maintenance of existing infrastructure (where it is more cost effective)

Products offered by F&C include:

- Rural wire fencing
- Post and rail fencing
- Electric fencing
- 'Horse friendly' fencing
- Sheep, cattle and horse yards
- Stable fit outs, wash bays and arena surrounds
- Chook yards (fox proof)
- Dog runs
- Hay feeders
- Grain feeders
- Stock crates (for utes and trailers)

## Farm Planning & Management

Customised Advice • Plans • Reports

Our mission for Farm Planning & Management (FP&M) is to help our clients articulate and achieve their management goals & objectives for their rural land.

The vision is that:

- FP&M is committed to the principles of sustainable, environmentally responsible, best practice farming.
- FP&M advises our clients on the cost benefit of their options and prepares plans and reports.
- FP&M advises our clients on contemporary issues such as managing for and through drought and adapting agriculture to the effects of climate change.

Services offered by FP&M include:

- Consulting for private and government clients
- Property visits and discussions
- Current condition assessments of above ground assets (i.e. plants, livestock, fences and outbuildings)
- Soil tests
- Advising clients on the cost benefit of their options and providing recommendations
- Referring clients to service providers
- Farm management on landowners behalf

Products offered by FP&M include:

- Farm Plans:

*A Farm Plan is like a 'roadmap' of where you want to be and how to get there. Farm Plans incorporate current condition assessments and recommendations to achieve management goals and objectives. They can be progressively developed at the clients pace.*

- Soil test reports
- Consulting reports

## Spraying Services

Recommendation • Product • Application

Our mission for Spraying Services (SS) is to be the preferred supplier of all spraying services for rural properties.

The vision is that:

- SS provides the highest quality services and products at a competitive price for our clients.
- SS achieves maximum results while minimising environmental impacts.
- SS provides a complete spraying service including:
  - spray recommendation
  - product supply
  - application
- SS partners with the FP&M Enterprise to offer a consultation service on more natural and sustainable approaches to establishing healthy pastures.

Services offered by SS include:

- Recommendation (advice on chemicals & natural products)
- Product supply (any quantity)
- Application using specialised equipment (boom and spot/hand spraying)
- Advice on pasture renovation and management (this service is linked to the FP&M Enterprise)

Products offered by SS include:

- Chemicals (herbicides, pesticides)
- Liquid fertilisers
- Soil conditioners and microbes (all natural)

## White Dorper Sheep

Prime Lambs • Breeding Stock • Education

Our mission for WDS is to promote the benefits and care of this breed through education and be the preferred supplier of White Dorper Sheep for hobby farmers, commercial producers and meat wholesalers.

The vision is that:

- WDS supplies the highest quality prime lambs and breeding stock at a competitive price for our clients.
- WDS provides information and a consultation service to assist producers with buying, selling and the efficient management of their White Dorper Sheep.

Services offered by WDS include:

- Information, advice and assistance:
  - Benefits and care of this breed
  - Buying, selling and transport
  - Breeding and flock management
  - Pest animal control
- DIY workshops:
  - lamb marking, vaccinating, drenching

Products offered by WDS include:

- Prime lambs
- Breeding ewes and rams
- Wethers as 'lawnmowers' & horse companion animals
- Ram lease
